

WEIDMANN

17th Annual Technical Conference

October 29 – November 1, 2018

The Hilton Minneapolis / St. Paul Airport – Mall of America

Weidmann has assembled a group of highly experienced and knowledgeable speakers to share their expertise with you. This excellent technical program will feature interesting and current presentations showcasing innovative and applied technologies. With topics including the areas of advancing transformer maintenance practices, new equipment materials for transformer and auxiliary equipment, and the diagnostic testing of transformers, circuit breakers, and load tap changers, the conference is designed to assist maintenance operators, engineers, and management in maximizing the life of electrical equipment in the field.

This year's Conference includes a sponsored Tour at the Jordan Transformer facility.

EVENT HIGHLIGHTS

FACILITY TOUR AT JORDAN TRANSFORMER

Jordan Transformer specializes in rewinding, repairing, remanufacturing, & supplying oil filled Substation & Mobile transformers. We also manufacture *entirely NEW* Mobile Substations. With our expanded high bay & cranes we now handle transformers up to 200 MVA & 230 kV with Impulse testing & Partial Discharge monitoring. We also offer complete transformer field services.

EXPO TRADE SHOW:

A 2-session EXPO Trade Show will be held at the Hilton Minneapolis (MN Ballrooms) on Tuesday afternoon. The latest equipment, products, technologies and services tailored to meet the needs of utility and other power industry participants will be showcased. It is a great opportunity to see and speak with vendors while enjoying a hosted lunch and cocktails. Vendor prizes will be provided during the event. If you are interesting in participating in the Vendor EXPO or need more information, please contact Linda Brooks at 802.751.3514 or email her at linda.brooks@weidmann-group.com. Additional vendor and sponsorship opportunities are still available.

INCLUDES:

Vendor EXPO

Tuesday, October 30, 2018

Pre-Conference INSULATION LIQUIDS / TRANSFORMER MAINTENANCE / DGA SESSION

Join us for the optional 1-Day Weidmann training course with presentations by Nick Perjanik, Manager of Knowledge Services on proper sampling and insulation liquid quality testing plus on dissolved gas analysis (DGA); Mike Lau, Chief Technology Engineer on transformer maintenance, life extension, moisture in insulation and transformer dryout. This pre-conference course is designed to cover the theory and application of diagnostic sampling, testing, and maintenance practices of electrical equipment. For those new or familiar with these topics, you will gain from the discussion on best practices and industry guide updates.

WELCOME RECEPTION and SOCIAL EVENT:

A welcome reception will be held Tuesday evening during our Vendor EXPO. This is an excellent opportunity to socialize with your colleagues while enjoying good food and beverages. Plus we are working on a Social Event to be held Wednesday evening in conjunction with Jordan Transformer. Look for more details of the event as they are updated.

CONTINUING EDUCATION CREDITS:

IEEE CEUs and NETA CTDs will be available to attendees at no additional cost for the Pre-Conference Training Session and the Main Conference.
